

SPECIFICATION AMENDMENTS

Substitute last full paragraph under the header "A Computer System"
on page 32, with the following:

The computer 908 includes components shown in block 916, such as a processing unit 918 to execute applications and a memory 920 containing various applications and files 922. The memory 920 includes computer-readable media. The computer-readable media may be any available media that may be accessed by the computer 908. ~~By way of example, and not limitation, the~~ Computer-readable media includes is defined by computer storage media comprising volatile and nonvolatile, removable and non-removable media implemented in any method or technology for storage of information such as computer-readable instructions, data structures, program modules, and other data. Computer storage media includes, but is not limited to, RAM, ROM, EEPROM, flash memory, or other memory technology, CD-ROM, digital versatile disks (DVD), or other optical storage, magnetic cassettes, magnetic tape, magnetic disk storage, or other magnetic storage devices, ~~or any other medium which may be used to store the desired information and which may be accessed by the computer 908.~~ Communication media typically embodies computer-readable instructions, data structures~~[[,]]~~ and program modules, ~~or other data in a modulated data signal, such as a carrier wave or other transport mechanism and includes any information delivery media. The term "modulated data signal" means a signal that has one or more of its characteristics set or changed in such a manner as to encode information in the signal.~~ By way of example, and not limitation, communication media includes wired media such as a wired network or direct-wired connection, and wireless media, such as acoustic, RF, infrared, or other wireless media. ~~Computer-readable media may also include any combinations of any of the above.~~
